

Can the pan/tilt cameras be set to do a guard tour (a continuous pan/tilt of the area)?

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

Alarm.com cameras do not currently have guard tour functionality, but pan/tilt cameras do have the option to point the camera to a user-created angle when a specific event-triggered event takes place. Example: If the front door is opened, the camera can be told to pan to the front door and record. For more information on creating or updating pan/tilt presets, see [Change a pan/tilt camera's position presets](#).

Procedure

Step-by-step guide: Screenshots and videos are placed with the instruction they illustrate.

Alarm.com cameras do not currently have guard tour functionality, but pan/tilt cameras do have the option to point the camera to a user-created angle when a specific event-triggered event takes place.

Example: If the front door is opened, the camera can be told to pan to the front door and record. For more information on creating or updating pan/tilt presets, see [Change a pan/tilt camera's position presets](#).

To create a rule for the camera to switch to a preset:

1. Log in to the GoSafer Security customer portal (powered by Alarm.com).
2. Click **Video**.
3. Click **Recording Rules**.
4. Click **Add New Rule**.
5. Click to select a supported rule from the *New Video Recording Rule* menu. Supported rules:
 - *Sensor Opened or Closed*
 - *System Armed or Disarmed*
 - *Entry Delay*
 - *Lock Activity* (for accounts with Z-Wave locks enrolled)
6. Enter a name for the new Recording Rule.
7. Customize the rule as desired.
8. Click to select the cameras that should record based on the Recording Rule.

9. Click to select **Move To**.

Pan select
Pan select

10. Using the dropdown menu, select the desired preset.
11. If video clip recipients are desired, click **Add** to select the recipients to be notified when this recording rule is triggered.
12. Click **Save Rule**.
