

Change a partition name

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

Systems with multiple partitions can be more easily managed with customized partition names.

Procedure

Step-by-step guide: Screenshots and videos are placed with the instruction they illustrate.

Systems with multiple partitions can be more easily managed with customized partition names. Partitions are ordered alphabetically in the app, so renaming a partition can help change a partition's position in a partition list.

To change a partition name:

Partition names can only be updated using the GoSafer Security customer portal (powered by Alarm.com). It cannot be updated using the Alarm.com app.

1. Log in to the GoSafer Security customer portal (powered by Alarm.com).
2. In the Security card, click **Details** as outlined in the following image:

Details Icon On Security Card

3. Click **Settings** for the partition to be edited.

Panel partition card

Panel partition card

4. In *Device Name*, enter the new partition name.

Partition settings

Partition settings

5. Click **Icon Close** to close the *Systems Settings* window. This saves the changes automatically.
