

Create/edit a Garage Open or Garage Close notification

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

A Garage Opened/Closed notification can notify users if the garage door is opened or closed.

Platform	App + Web
Content type	How-to / Configuration
Source last updated	2025-06-04

Procedure

To create/edit a Garage Open or Close notification using the Alarm.com app

1. Log in to the Alarm.com app.
2. Tap [Menu].
3. Tap Notifications.
4. Tap [Settings].

To edit the notification, tap to select the Garage notification.

If the notification has not been created, tap [Add], and then tap Garage.

Rename the rule.

In When, tap to select the names of the of the garage doors to be notified about.

In Is, tap to select the garage door actions to be notified about.

In During this time frame, tap to specify when to receive notifications.

At All Times will send a notification anytime of day if the garage status changes.

Only during the following times specifies the days and times that the notifications will be sent.

In Notification Filtering, there is the option to receive notifications based on Geo-Device rules.

1. Tap to select Do not send notifications that occur within and use the dropdown menu to limit the number of notifications sent.

There is also the option to receive a notification based on geographical location in When selected people cross a Geo-Fence by selecting the Geo-Devices and crossing preferences.

To add notification recipients, tap Add.

1. Tap to select the desired recipients from the Address Book, or add an unlisted recipient by tapping Add Contact.
2. Tap Close.
3. Verify the notification is configured with the correct settings.
4. Tap Save.

To create/edit a Garage Open or Close notification using the GoSafer Security

customer portal (powered by Alarm.com)

1. Log in to the GoSafer Security customer portal (powered by Alarm.com).
