

Create/edit a group Employee arming activity notification

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

An employee arming activity notification can notify users when and who is opening up for the day and closing down for the night at any of the properties in the group.

Procedure

To create/edit a group Employee arming activity notification using the GoSafer Security customer portal (powered by Alarm.com):

1. Log in to the GoSafer Security customer portal (powered by Alarm.com).

Using the Locations dropdown menu, select the desired group.

1. Click Notifications.

To edit the notification, click [Edit] for the employee arming activity notification.

If the notification has not been created

1. Click New Notification.
2. Click to select Business.
3. Click Employee arming activity.
4. Enter the desired name the notification rule.

Using the When dropdown menu, select either of the following

Any User or Keyfob to be notified about any user arming/disarming.

1. Select Users and Keyfobs to be notified about specific users.

In During this time frame, select either

At All Times to always receive notifications.

Only During the Following Times to only receive notifications during a specified time.

In Notification Filtering, select desired settings to limit notifications that are sent.

To choose notification recipients, click Add.

1. Click the entries in the Address Book that are to be notified, or click New to add a new address book entry.
2. Click Close.
3. Verify the notification is configured with the correct settings.
4. Click Save.
