

# Create/edit an Entry Delay recording rule

## GoSafer Security Knowledge Base

*This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.*

## Overview

An Entry Delay recording rule records video when specific sensors report an entry delay.

|                     |                        |

## Procedure

### To create an entry delay recording rule

1. Log in to the GoSafer Security customer portal (powered by Alarm.com).
2. Click Video.
3. Click Recording Rules.
4. Click Add New Rule.
5. Click Entry Delay.

Name the new recording rule.

Using the When an entry delay is triggered by dropdown menu, select which entry delay sensors should trigger a clip recording.

In During this time frame, select the time frame for the rule to be active.

In Record clips from these cameras, click to select the cameras that should record.

In Video Clip Recipients, click Add Recipients to be notified when the recording rule is triggered.

1. Click the entries in the Address Book that are to be notified, or click New to add a new Address Book entry.

Once all desired recipients are selected, click Close.

1. Verify the recording rule is configured with the correct settings.
2. Click Save Rule.

## To edit an entry delay video recording rule

1. Log in to the GoSafer Security customer portal (powered by Alarm.com).
2. Click Video.
3. Click Recording Rules.
4. Click the [Edit] for the Entry Delay recording rule.

If you do not see the Entry Delay recording rule, it has not been created yet.

## Source and support
