

Export the system activity history

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

The system activity history can be exported from the website.

Platform	Customer Website
Content type	Reference
Source last updated	2025-06-04

Procedure

To export the system activity history

1. Log in to the GoSafer Security customer portal (powered by Alarm.com).
2. Click Activity.
3. Click to expand Filters.
4. Select any of the following filters to search with:

Using the Search bar to view activity matching specific keywords.

Using the Date Range to view activity within a specified timeframe.

Using the Users dropdown menu to view the activity of specified users.

Using the Event Type dropdown menu to view activity from specific events.

Using the Device Type dropdown menu to view activity from specific device types.

Using the Device Name dropdown menu to view activity from specific devices.

1. Click [Download], and then select to export the filtered system activity search as either a CSV or PDF file. The file is downloaded to your computer.
