

Heating and Cooling Alert

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

A Heating and Cooling Alert indicates that thermostat data shows the heating or cooling system is not performing as expected.

Platform	General / Device
Content type	How-to / Configuration
Source last updated	2026-03-25

Procedure

How to resolve

We recommend contacting a heating and cooling professional to make sure your system is properly maintained and your home stays comfortable.

If you need additional support, contact your service provider.
