

How can I know if there is a local power outage on the app?

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

A real-time notification about local power outages only displays in the Alarm.com app during instances when there may be a power outage in your area.

Platform	Mobile App
Content type	FAQ / Explanation

Procedure

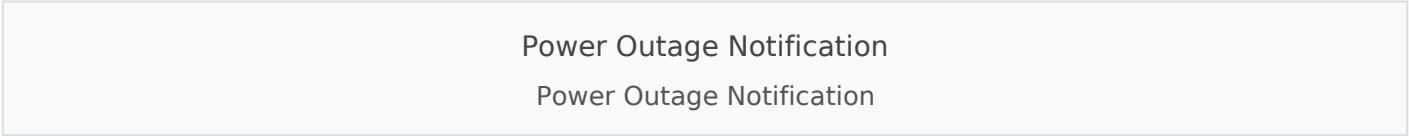

Step-by-step guide: Screenshots and videos are placed with the instruction they illustrate.

A real-time notification about local power outages only displays in the Alarm.com app during instances when there may be a power outage in your area.

To view the power outage notification on the Alarm.com app:

1. Log in to the Alarm.com app.
2. In the Top Recommendations card, find the power outage notifications, then tap **Learn More**.

The following is an example of how a power outage notification appears in the Top Recommendations card in the Alarm.com app:
