

How do I change the language of the customer app?

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

The language of the Alarm.com app is determined by the system language setting of the mobile device. Example: If the device is an iPhone with a system language of French, the Alarm.com app will display in French.

Platform	App + Web
Content type	How-to / Configuration
