

Is the Alarm.com iOS Today View Widget a supported feature?

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

No. With the release of iOS 18, legacy widgets such as the Alarm.com iOS Today View widget are no longer supported for both new and existing customers. Available widgets include the Saved Clips, Safety Button, and iOS Alarm.com System Control widgets. For more information about the Saved Clips widget, see Saved Clips widget for iOS.
