

Remotely change 2GIG GC3 panel settings

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

Change some of your panel settings using the app including beeps, and temperature display units.

Platform	Mobile App
Content type	How-to / Configuration
Source last updated	2025-06-04

Procedure

Step-by-step guide: Screenshots and videos are placed with the instruction they illustrate.

Compatible panel settings can be changed using the Alarm.com app.

Note: If these options are not available, contact your service provider for more information.

To change panel settings:

1. Log in to the Alarm.com app.
2. Tap **Security System**.
3. Tap **Settings**.
4. Tap the setting to be configured.
5. Tap the desired value.
6. Tap **Save**.

Compatible panel settings:

Setting	Description
Temperature Display	Select if the temperature is displayed in Fahrenheit or Celsius
