

Remotely change Interlogix Simon XTi panel settings

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

Change some of your panel settings using the app including beeps, chimes, and speaker volume.

Platform	Mobile App
Content type	How-to / Configuration
Source last updated	2025-06-04

Procedure

Step-by-step guide: Screenshots and videos are placed with the instruction they illustrate.

Compatible panel settings can be changed using the Alarm.com app.

Note: If these options are not available, contact your service provider for more information.

To change panel settings:

1. Log in to the Alarm.com app.
2. Tap **Security System**.
3. Tap **Settings**.
4. Tap the setting to be configured.
5. Tap the desired value.
6. Tap **Save**.

Compatible panel settings:

Setting name	Setting options	Description
Sounds Settings	Piezo Beeps	Determines whether the panel piezo produces beeps based on system activity
Sounds Settings	Chime Voice	Determines whether the panel announces the sensor name
Sounds Settings	Chime Type	Determines the type of chime for the sensors that chime (i.e., voice, bell, soft bell, off)
Sounds Settings	Speaker Volume	Determines the volume of voice messages from the panel speaker
Sounds Settings	Status Beep Volume	Determines the panel piezo volume level for status sounds such as arming, trouble, and status beeps
Sounds Settings	System Status Announcement	Determines whether the panel announces arming level changes
Sounds Settings	Panel Piezo Alarm	Determines whether the panel piezo siren turns on for alarms
24 Hour Clock	System Options - 24 Hour Clock	Determines whether the system uses a 24 hour clock or a 12 hour clock
