

View.var archived SVR footage

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

Files with a.var extension can only be opened using the Archive Viewer program, which is available for Windows.

Platform	Customer Website
Content type	How-to / Configuration
Source last updated	2026-05-27

Procedure

Files with the.var extension require the Archive Viewer program to view.

To download the Archive Viewer, click Archive Viewer program for Windows. This program enables you to view the.var file exported on your storage device.

Note: The Archive Viewer only works using the Windows operating system. For alternative ways to export and view footage, see Export video using the ADC-CSVR2000P/2008P/2016P local interface and Download saved video from an SVR.
