

iPhone's Home Screen Quick Actions feature for the Alarm.com app

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

The Alarm.com app takes advantage of Apple's Home Screen Quick Actions and gives you access to various Quick Actions right from the home screen. Important: Home Screen Quick Actions are only available on iPhones with iOS version 13.0+.

Platform	Mobile App
Content type	How-to / Configuration
Source last updated	2025-06-04

Procedure

Quick Actions available

Arm Away

Arm Stay

Disarm

Lock or Unlock Locks

1. Open or Close Garage Doors

View Cameras

View Thermostats

View Lights

View Doorbells

How to configure Home Screen Quick Actions

Note: Up to four items can be added to the Home Screen Quick Actions.

1. Log in to the Alarm.com app.
2. Tap [Menu].
3. Tap App Settings.
4. Tap Home Screen Quick Actions.
5. Tap Edit.

A prompt to enter your password may appear if Keep me logged in was not selected at login. This is required for Home Screen Quick Actions features to work.

In More Items, perform any of the following

1. Tap [Add] to add items to the Home Screen Quick Actions list.
2. Tap [Remove] to remove items from the Home Screen Quick Actions list.

Drag [Menu] on the right side of the Home Screen Quick Actions list to reorder items.

Note: To configure arming settings, tap [Settings] on the desired arming setting.

[Home Screen Quick Actions]

When finished, tap Done.

How to use Home Screen Quick Actions

From the home screen, press and hold the Alarm.com app icon to reveal the Quick Actions.

[Quick Action Menu]

1. Tap the desired Quick Action.

There may be a prompt to enter an app PIN or provide a Touch ID, if applicable.

Important: The Thermostat, Light, Doorbells, and Camera Quick Actions will open the app to the corresponding view, where it is possible to view or control the desired item.
