

Password protect the ADC-CSV126 local interface

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

The user can set up a password that must be entered to interact with the Commercial Stream Video Recorder (CSV126) local user interface.

Platform	Customer Website
Content type	Reference
Source last updated	2025-12-08

Procedure

Use a connected mouse

Right-click anywhere on the screen.

1. Click the Password field.

Use the virtual keyboard to enter the password.

[Enter Password]

1. Click Log in.

To exit the login screen without entering a password, right-click.

Use the ADC-CSVR126's navigation buttons

1. Press [Menu].
2. Press and release the down button until the Password field is highlighted.
3. Press the center button.

Use the virtual keyboard to enter the password.

[Enter Password]

1. Press [Esc].
2. Press the down button.

With Continue highlighted, press the center button.

To exit the login screen without entering a password, press [Esc] until the live video reappears.
