

View the system activity history

GoSafer Security Knowledge Base

This operational reference is organized for GoSafer Security customers and staff. Alarm.com product names are retained where required for technical accuracy.

Overview

The system activity history shows system, website, and user activity.

Platform	App + Web
Content type	How-to / Configuration
Source last updated	2026-07-16

Procedure

To view the system activity history using the Alarm.com app

1. Log in to the Alarm.com app.
2. Tap Activity.

Specific system activity history can be searched for in various ways

In Quick Filters, tap to select a previously created filter.

To create a new Quick Filter, tap [Edit], then tap [Add].

To edit a Quick Filter, tap [Edit], then tap the desired filter to edit.

1. Tap [Filter] to apply basic filters such as:

In Timeframe, tap Recent Activity for recent events or tap Specific Date Range to select a specific time range.

In Video, tap to expand a specific video category, then select the desired filters.

In Features, tap to expand a specific device category, then select the desired filters.

1. Tap Apply once the desired filters are selected.

To view the system activity history using the GoSafer Security customer portal (powered by Alarm.com)

Note: Only 1,000 events can be displayed at a time. If a filtered search returns more than 1,000 events, then more filters need to be applied to narrow the search.

1. Log in to the GoSafer Security customer portal (powered by Alarm.com).
2. Click Activity.

Note: By default, the last 100 events are displayed on the first page and up to 10

pages of events can be accessed.

Specific system activity history can be searched for in various ways

Using the Search field, enter specific keywords to search for the desired activity.

1. Click Quick Filters to access previously created filters.

To create a new Quick Filter, click [Edit], then click [Add].

To edit a Quick Filter, click [Edit], then click [Edit] next to the desired filter to edit.

1. Click Filter to apply basic filters such as:

In Timeframe, select Recent Activity to view the recent activity or Specified Date Range to select a specific date or date range.

In Features, click to expand the desired device category, then select the desired filters.

1. Click + Quick Filter to create a customized filter. New Quick Filters can be found at the top of the Activity section.
